 Stephen Grider

⚡ Model: Default (GPT-3.5)

 What is 1+1?

 The sum of 1+1 is 2.

 and 3 more?

 If you add 3 more to the sum of 1+1, the result would be 5.

Terminal

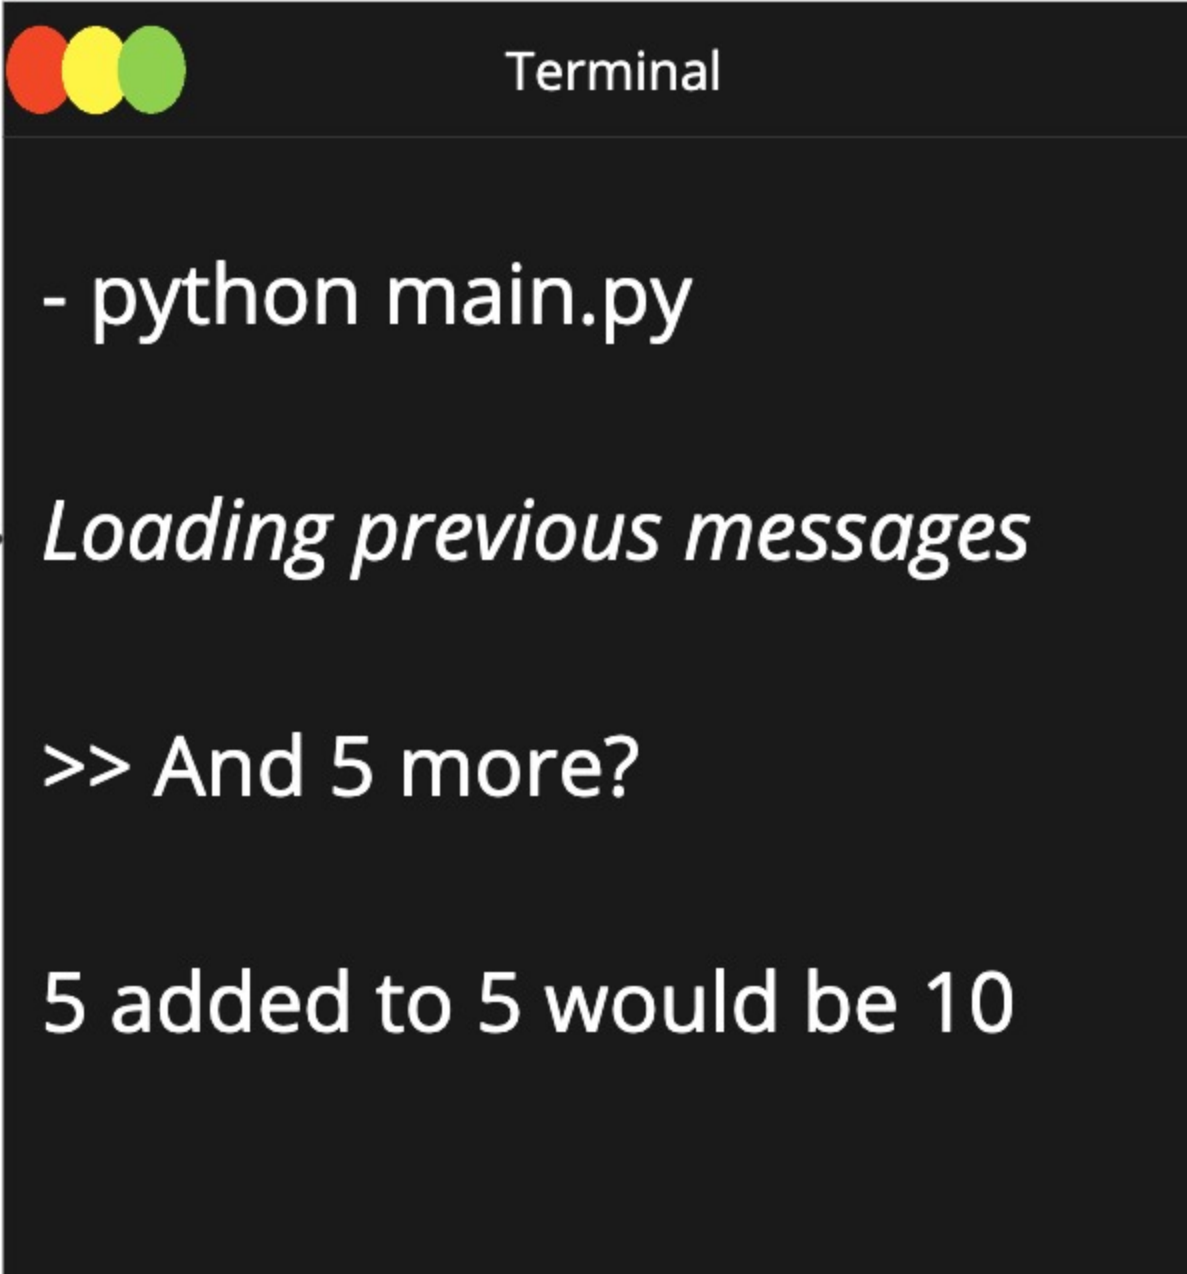

```
>> What is 1+1?  
  
2  
  
>> And 3 more?  
  
The result would be 5
```

messages.json

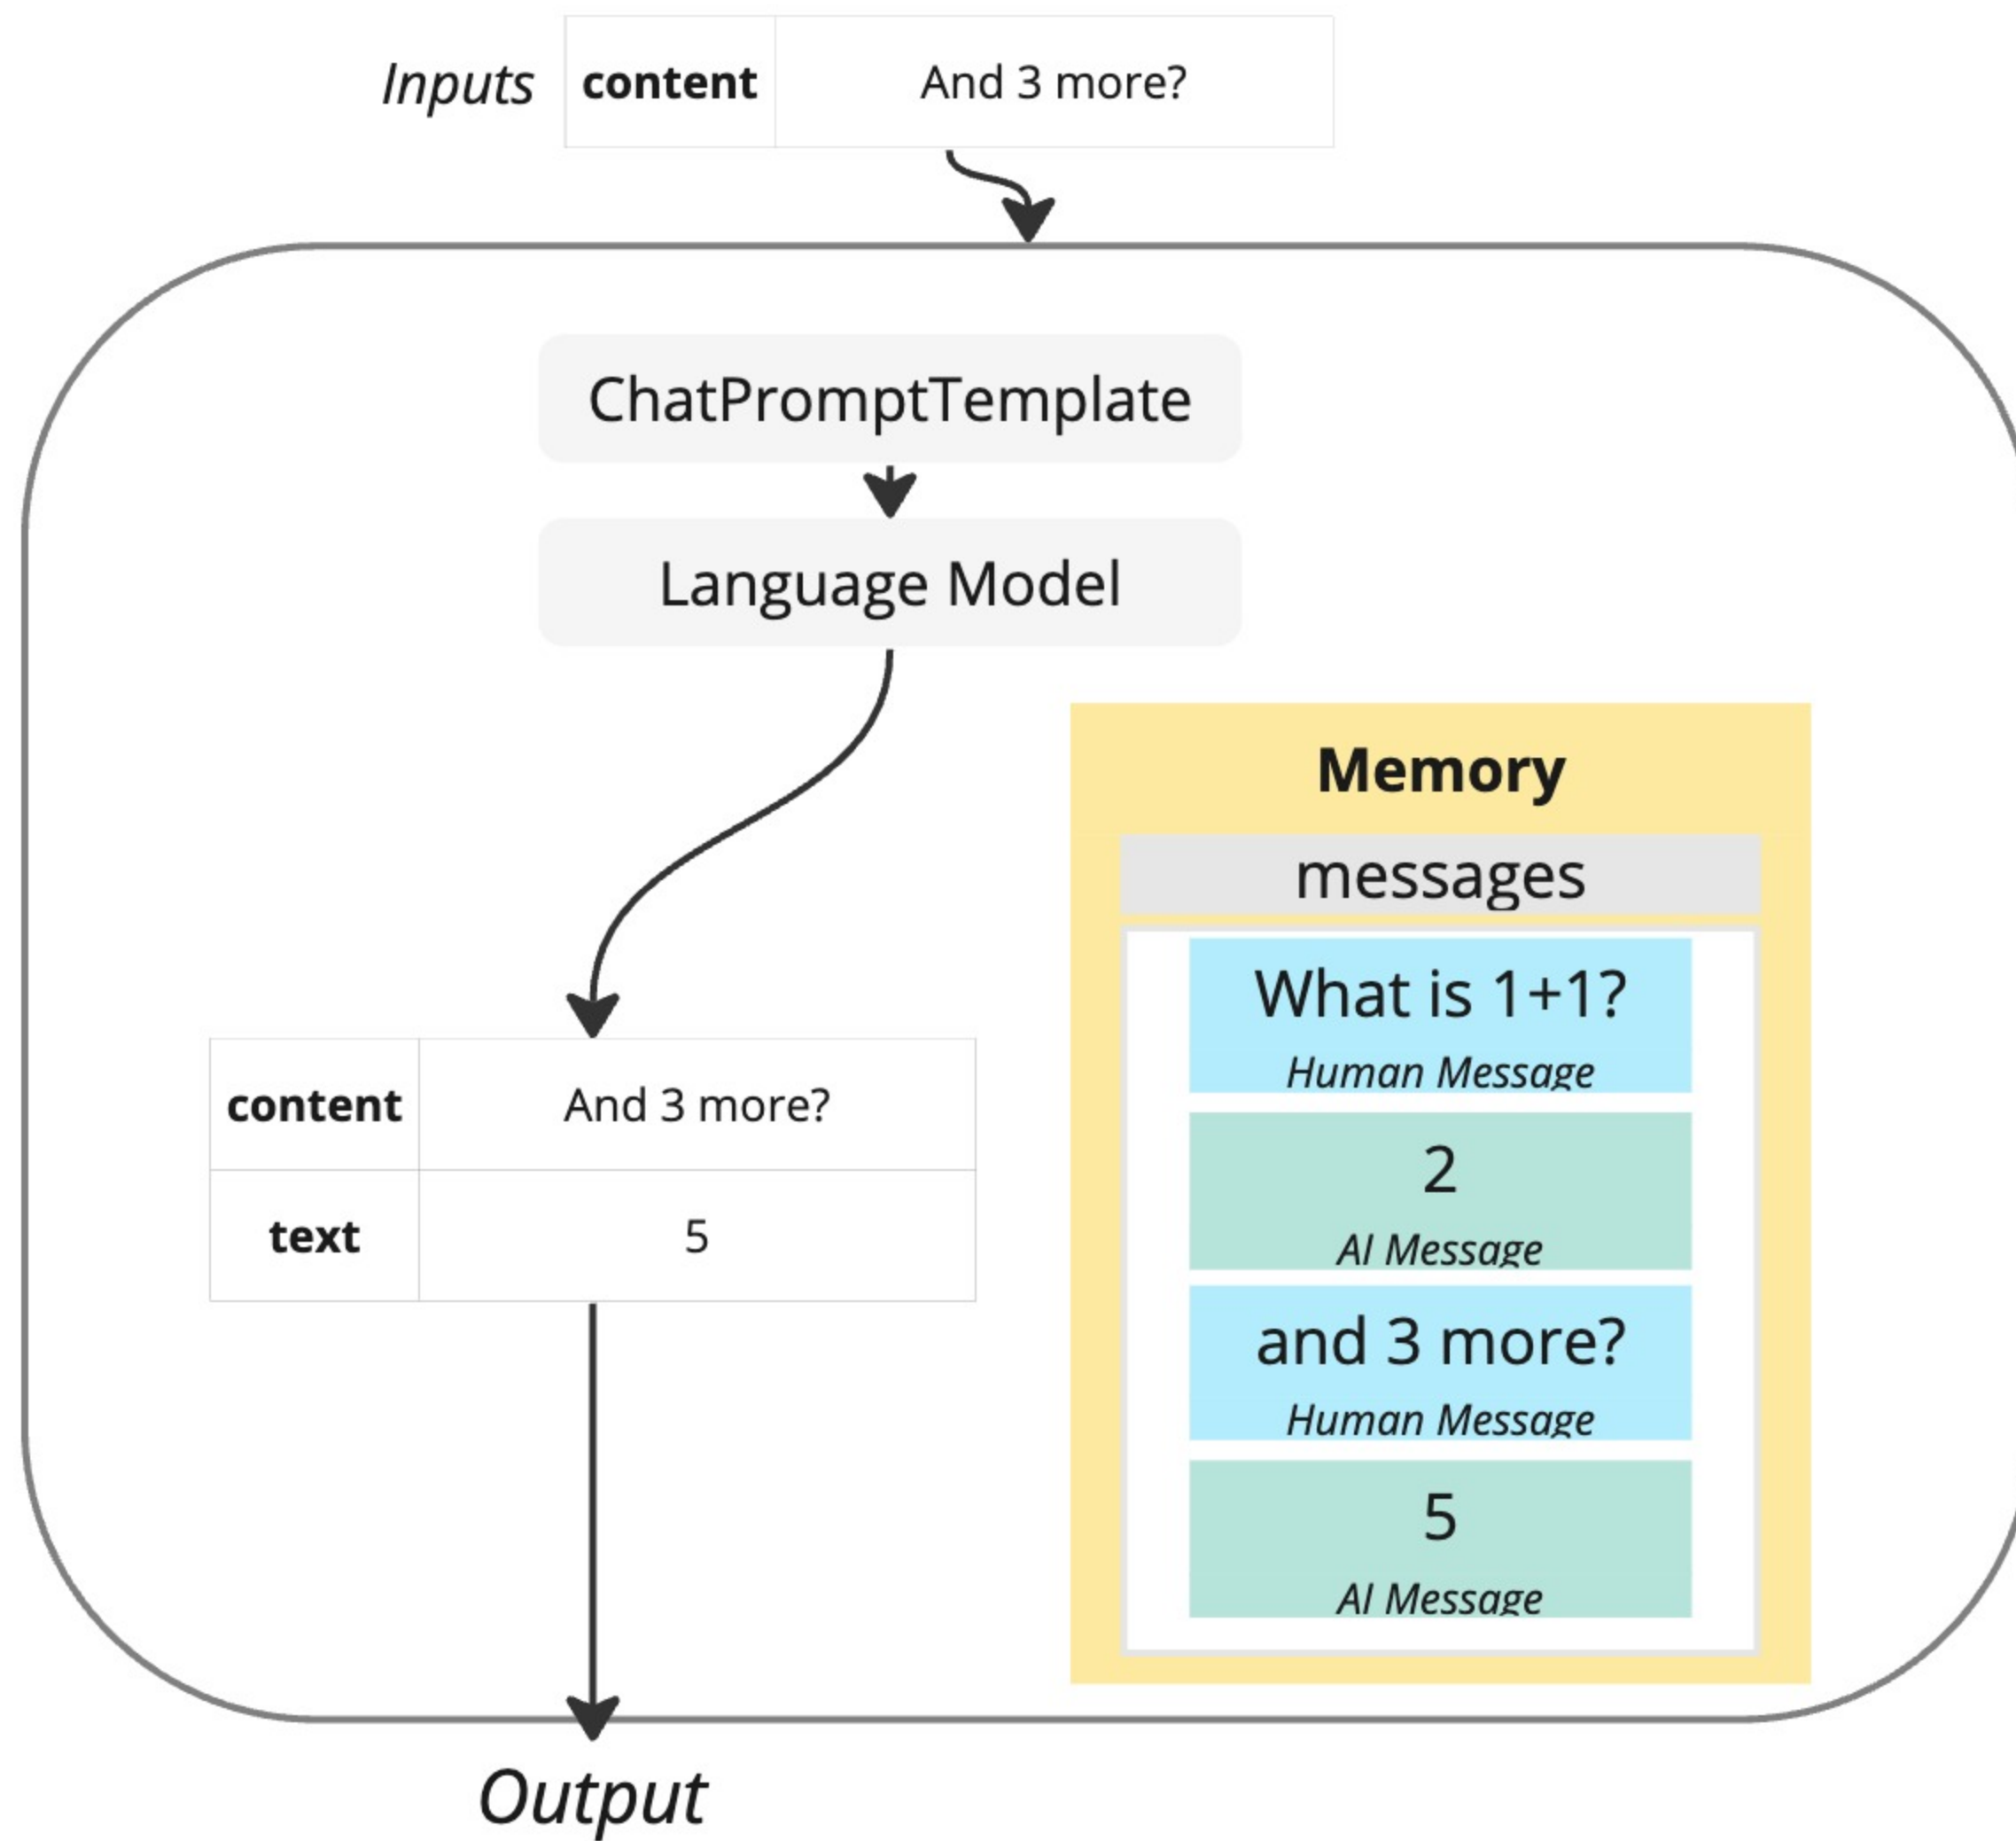

```
1  [  
2    { "type": "human", "content": "What is 1+1" },  
3    { "type": "ai", "content": "2" },  
4    { "type": "human", "content": "And 3 more?" },  
5    { "type": "ai", "content": "The result would be 5" }  
6  ]
```

When restarting the program,
restore previous messages
from messages.json

```
- python main.py  
Loading previous messages  
  
>> And 5 more?  
  
5 added to 5 would be 10
```

The image shows a terminal window with a dark background and a title bar at the top containing three colored circles (red, yellow, green) and the word "Terminal". The terminal displays the command to run a Python script, followed by a stylized message indicating it is loading previous messages. It then shows a prompt and a user input, followed by the program's response.

Super long-running conversation

There's a limit to how much content we can send to LLM's

Text generation costs more + takes longer for longer messages
